

FUN FACTS AND ACTIVITIES ABOUT ASIA

This is one of three activity packets designed to help students have fun while learning about the various regions of the world where Unbound works. The Asia packet features activities, puzzles and facts about India and the Philippines.

SUGGESTED USE

The activity packet is designed to be adaptable for a teacher's needs. It could be used as part of a comprehensive unit on Asia, or the activities could be spread out throughout a semester. The puzzles and coloring pages could also be used individually as "rainy day" activities.

Be sure to see our activity packets for Latin America and Africa, too!

Prayer

Loving God, we thank you for the continent of Asia, the largest and most diverse in the world. We especially thank you for the Unbound communities in the amazing, ancient lands of India and the Philippines, so different from one another yet each with its own special beauty. May we always be eager to learn more about the wondrous world you have created. We ask this in your most holy name. Amen.
